ACCESSING THE FRONT PANEL CONFIGURATION EDITOR

- Press the Stop/Reset  and Info  buttons simultaneously
- If a module security PIN has been set, the PIN number request is then shown (The first * is flashing) :
- Press + or – buttons to adjust it to the correct value. Press  when the first digit is correctly entered. Repeat this process for the other digits of the PIN number.
- When  is pressed after editing the final PIN digit, the PIN is checked for validity. If the number is not correct, the editor is automatically exited. To retry you must re-enter the editor as described above.
- If the PIN has been successfully entered (or the module PIN has not been enabled), CONFIGURATION is displayed :

EDITING A PARAMETER

- Enter the editor as described above.
- Press the + and – buttons to cycle to the parameter you wish to change.
- Press the  button to enter edit mode. The parameter will flash to show edit mode is active (in this instance, "0:02 m:s" is flashing)
- Pressing the + and – buttons will adjust the parameter to the desired value. If you have mistakenly changed the value, press the Stop/Reset  button once to return the parameter to the previously stored value and exit the edit mode back to parameter selection.
- For *date and time* editing only: press  to select between day, month, year, hours and minutes.
- Press the  button to 'save' the value. The value will stop flashing to confirm that it has been saved.
- To select another value to edit, press the + button. Continuing to press the + and – buttons will cycle through the adjustable parameters as shown overleaf.
- To exit the front panel configuration editor at any time, press the Stop/Reset  button. Ensure you have saved any changes you have made by pressing the  button first.

NOTE:- When the editor is visible, it is automatically exited after 5 minutes of inactivity to ensure security.

NOTE:- The PIN number is automatically reset when the editor is exited (manually or automatically) to ensure security.

NOTE:- More comprehensive module configuration is possible using the 5xxx series PC configuration software in conjunction with the P810 PC interface. Please contact us for further details.

NOTE:- Languages are subject to change as the modules are updated. Please contact us for the list of latest supported languages.
