**INTERNATIONAL ENGINES
INDUSTRIAL ENGINE PARTS AND SERVICE
DIRECTORY**

This directory was prepared to help you quickly locate an Engine Servicing Dealer. It is arranged alphabetically by state or province and city.

The IH Dealers listed in the directory are capable of supplying parts and service for IH Industrial Engines. These Dealers sell and service products of the three major International Harvester Product Groups, The Payline Group - construction equipment, the Truck Group - on-highway trucks, and Agricultural Equipment Group - farm machinery.

IH Industrial Engines that are sold to Original Equipment Manufacturers are very similar to engines used in IH end products. Some Dealers, therefore may be more familiar with certain model engines and have service parts in stock to service your engine.

In many cases there will be more than one Dealer listed in a city. Contact the Dealer nearest you or one you may already be dealing with for parts and service assistance. Depending upon the IH product line sold by the Dealer, and the engine model, he may suggest an alternate Dealer that can supply parts from his stock. All Servicing Dealers have access to the IH Parts Distribution system, parts catalogs, service bulletins, service manuals, and Technical Support personnel to support your engine.

A Few Important Words About Service Parts

International Harvester's Service Parts Distribution System uses the latest technology to ensure that parts are available when needed. Information on each service part is retained by "on-line" computers. Should you need to order a part, refer to the parts catalog which is shipped with each Industrial Engine and obtain the part number. Servicing

Dealers will be able to quickly assist you when provided the part number.

Obtain The Maximum Engine Life

To obtain the maximum life and efficiency built into each IH engine, follow the recommended maintenance procedures listed in the Operator's Manual. Each Industrial Engine is supplied with an Operator's Manual. If you would like to purchase an additional Operator's Manual or any other service manual for your engine, please use the order blank in this Directory.

Obtain The Benefits Of Continuing Improvements

When service parts are required be sure to specify International Harvester new or ReNewed® parts. The results of continuing laboratory tests, manufacturing process improvements, and field experience are incorporated into service parts so that whenever possible older engines may be put back into service with the advantages incorporated in the latest production engines.

In-Warranty Service

When an Industrial Engine is delivered, the selling Original Equipment Manufacturers' Dealer completes a Delivery Notice and Warranty Registration form. As the owner of an Industrial Engine you will receive a segment of the form from the Original Equipment Manufacturers' Dealer which contains the engine model, engine serial number, engine application designation, delivery date, and the engine warranty. The same information is sent to International Harvester.

If in-warranty service is necessary, you must present the form to a Dealer listed in this Directory. The instructions on the form should be followed in the event there are any questions regarding in-warranty service.

For the United States & Canada

International Harvester
Engine Division - Industrial Engine Sales
401 No. Michigan Avenue
Chicago, Illinois 60611

Telex: 253547
Phone: 312 - 836-2000

Additional Assistance

In the event you have difficulty in obtaining parts or service, or need additional assistance, please contact this location.

SERVICE LITERATURE AND PARTS INFORMATION

International Industrial Engines are complemented by a complete and current selection of service manuals, operator's manuals and parts catalogs. The manuals and catalogs assist the owner in operation and maintenance of his International Industrial Engine by providing proper service and operational procedures as well as service parts listings. Recommended maintenance schedules and procedures must be followed to ensure the most economical and efficient operation of the engine.

Each International Industrial Engine is delivered with an operator's manual, parts catalog and dealer

directory. If these copies are misplaced or extra copies are required, use the order blank on this page for ordering. This order blank should also be used for ordering service manuals. A complete list of service literature and parts catalogs is included on the following pages. Mail order to:

International Harvester Company
Printing and Distribution Services
807 Blackhawk Drive
Westmont, Illinois 60559

Attention: Customer Sales

NOTE: Enclose check or money order payable to International Harvester Company. **DO NOT SEND CASH.** Please allow 30 days for delivery.

SERVICE MANUALS

The listing for service manuals is divided into the following areas:

- Basic Engine
- Carburetors
- Distributors
- Fuel Injection Pumps
- Fuel Injection Nozzles
- Starting Motors
- Alternators

Due to variations of trim parts within an engine family, each component should be positively identified prior to ordering a service manual. If assistance is required in this area, contact the following:

International Harvester Company
 Engine Division - Industrial Engine Sales
 401 North Michigan Avenue
 Chicago, Illinois 60611
 Telex: 253547
 Phone: 312 - 836-2000
