AB Volvo Penta
SE-405 08 Göteborg, Sweden

Volvo Penta

Volvo Penta is a leading manufacturer of engines and complete power systems for marine and industrial use. The products are sold in more than 100 countries. Production of diesel engines is carried out in Vara and Skövde in Sweden. Gasoline engines and drive systems for installation in leisure boats are produced in Lexington, Tennessee, USA.

The product range in Volvo Penta's Marine Leisure business segment consists of gasoline and diesel powered engines with power outputs in the range of 10 hp to 770 hp, as well as complete power systems.

Engines in the Marine Commercial business segment have power outputs ranging from 100 hp to 2000 hp and complete power systems for ship propulsion as well as marine auxiliary engines.

The Industrial Engine business segment includes engines for many different uses, such as in irrigation systems, generators, power systems for trains and heavy forklift trucks, terminal handling equipment and farm machines are a few examples.

Volvo Group

Volvo is one of the world's largest producers of trucks, buses and construction equipment and holds leading positions in power systems for marine and industrial applications as well as aircraft engine components. The Volvo Group focuses on transport vehicles for commercial operations that create new conditions for increased coordination benefits and improved competitiveness.

Volvo is one of the best known brands in the world, linked strongly to quality, safety and care for the environment.
