PT Fuel Pump Calibration Values Index

Foreword

This manual contains the index for all of the fuel pump calibration values that use the PT fuel pump code system.

This manual does not contain the fuel pump calibration values that are not the PT fuel system.

The index is sorted by a computer in the following sequence:

1. CPL Number (Numerical)
2. Engine Model (Alphabetical then Numerical)
3. Horsepower (Lowest H.P. First)
4. RPM
5. Code Number
