DECIBELS

Ultra-Silent Features

- ☐ **Low Noise Muffler**— Large capacity low noise muffler minimizes exhaust sound.
- ☐ **Soundproof Casing**— The new design divides the cabinet into three sections, separating the engine, muffler and radiator for more efficient cooling and reduces noise from the engine and fans.
- ☐ **New Cooling System**— An advanced design uses two separate air intake systems to cool the generator. The engine fan draws air in to cool the engine and generator housing while a second electric fan directly cools the radiator. With less air being drawn into the generator through each fan, considerably less noise is produced through the top of the generator.
- ☐ **Environmental Design** — Constructed using an integrated environmental skid and fuel tank. This design fully contains fuel leakage and any liquid that might leak from the engine such as lube oil or radiator coolant. All potentially hazardous liquids are contained without contaminating the surrounding area.

Optional Control Features

- ☐ **Emergency Stop Switch.**
- ☐ **Audible Alarm** — alerts operator of abnormal conditions.

Optional Generator Features

- ☐ **Battery Charger** — provides fully automatic and self-adjusting charging to the generator's battery system.
- ☐ **Jacket Water Heater** — for easy starting in cold weather climates.
- ☐ **Special Batteries** — long life batteries provide extra engine cranking power.
- ☐ **Spring Isolators** — provides extra vibration protection for standby applications.
- ☐ **Low Coolant Level Shutdown** — provides protection from critically low coolant levels. Includes control panel warning light.
- ☐ **Trailer Mounted Package** — highway legal trailer with electronic or surge brakes with tandem axle configuration.

Optional Distribution Devices

- ☐ **Cam-Lock connectors.**
- ☐ **Pin & Sleeve Connectors.**
- ☐ **AC Output Cable.**
