FROM: Technical Service Development

SUBJECT: **Permatex is Detroit Diesel new Supplier**

ISSUE

Effective immediately, Detroit Diesel is utilizing Permatex® as our preferred supplier, instead of Loctite.

Tool letter 07 TS-13 references the Loctite part numbers used for reattaching the oil filter stud. The table below is a cross reference to the Permatex part numbers.

Loctite 272	Loctite 7649
Permatex 27250 50 mil bottle	Permatex 19266 1 gal
Permatex 27255 250 mil bottle	Permatex 24163 6 oz aerosol can

Permatex 19266 and 24163 are not available from our Canton parts distributor. These parts need to be obtained at a local Permatex distributor for your area.

Intermixing Loctite and Permatex would have no adverse effect on either product.
