SUBJECT: **Looking up Series 60® and MBE Aftertreatment Device (ATD)
Assembly Components in the Series 60 Parts Catalog**

ISSUE

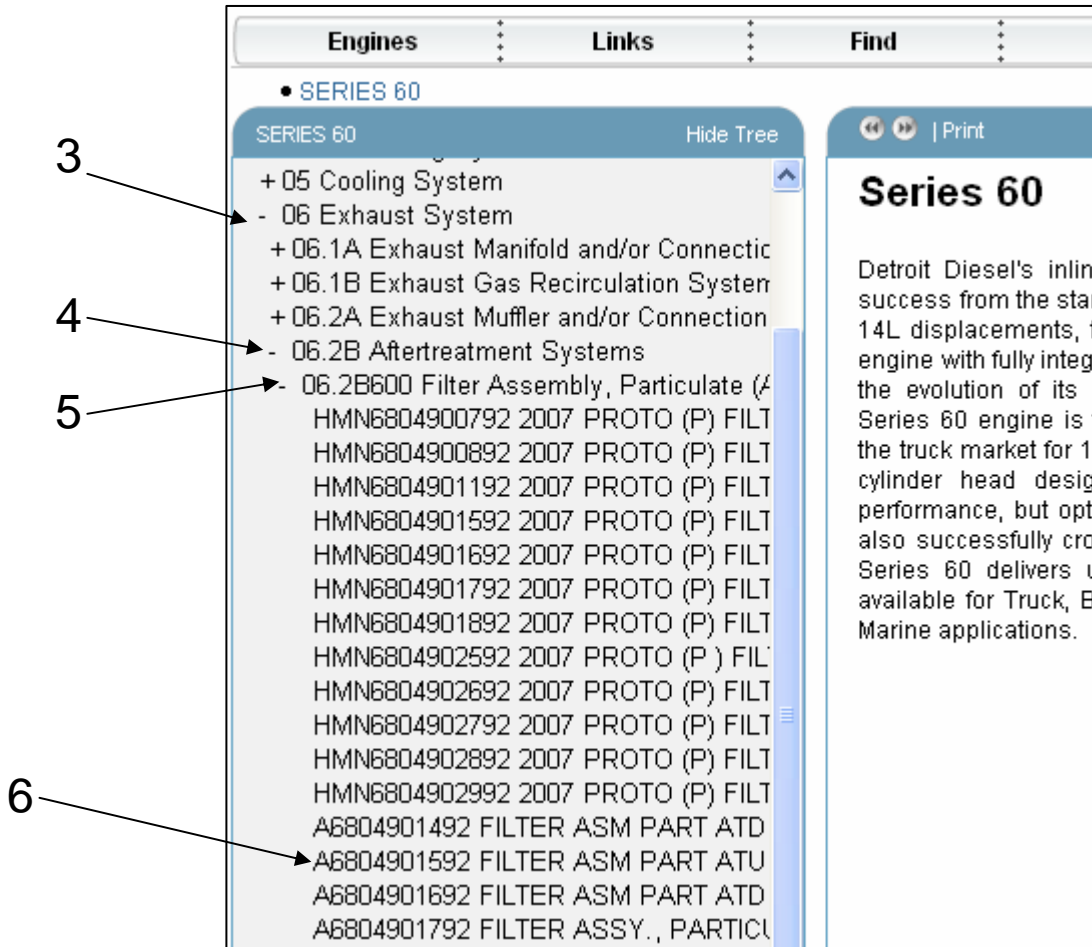

MBE ATD assembly components are not available in the MBE eParts Catalog. The MBE ATD assembly components are available in the Series 60 eParts Catalog.

CAUSE

The MBE ATD data and illustrations have not been delivered to the DDC MBE eParts Catalog.

REQUIRED ACTION

1. Locate the ATD assembly number. Perform one of the two following options:
 - Freightliner Dealers can look on the label on the ATD or use the PartsPro system.
 - DDC Distributors can look on the label on the ATD or contact the Customer Support Center to obtain the ATD assembly number.
2. Open the Series 60 engine eParts Catalog. NOTE: An engine serial number is not required.

3. Select 06 Exhaust System
4. Select 06.2B Aftertreatment Systems
5. Select 06.2B600 Filter Assembly, Particulate. This will display ALL of the ATD assembly part numbers on the Series 60 and MBE products.
6. Select the appropriate ATD assembly. The Bill of Material (BOM) and illustration will display in the Parts Catalog right column and center column.

The screenshot displays the Detroit Diesel eParts Catalog in Microsoft Internet Explorer. The browser address bar shows the URL: <http://192.135.85.16/IntSeries60/catalog.asp?ENGINES=+0::50::55::60::8.2L::2000::4000::53MPC::53VEH::71MPC::71VEH::V71MPC::V71VEH::92::149::MBE::SOUTE>. The page title is "Detroit Diesel - eParts Catalog - Microsoft Internet Explorer provided by DDC".

The main content area is titled "PartsCatalog" and "ATD Illustration". It shows a navigation path: SERIES 60 > 06 Exhaust System > 06.2B Aftertreatment Systems > 06.2B600 Filter Assembly, Particulate (ATD) > A6804901692 FILTER ASM PART ATD HORIZ. The "View" button is highlighted.

On the left, a tree view shows the product structure. The selected item is "A6804901692 FILTER ASM PART ATD".

In the center, an exploded view diagram of the ATD assembly is shown, labeled "Figure 1.2". A red arrow points to a specific component in the diagram, which is labeled "Selected ATD Assembly".

On the right, a table lists the components of the assembly:

Callout	Part Number	Qty	Description
6	A4709950002	2	CLAMP V-BAND 12 IN HVY DTY. ATU S60
7	A4709970045	2	GASKET V-BAND JOINTS 12 IN ATU S60

15	:N910105006002	1	BOLT HEX HEAD FLANGE

7. Select desired components.

ADDITIONAL INFORMATION/NOTES

Both the Series 60 and MBE ATD components are available in the Series 60 eParts Catalog today.

The MBE ATD components are currently NOT available in the MBE eParts catalog.

The eParts Catalog Tutorial and FAQ section (located in the lower right side of the EPC screen) address how to look up assembly components and many other useful features. Please take some time to review these valuable tools.

CONTACT INFORMATION

Please contact the Detroit Diesel Customer Support Center at 313-592-5800 if you have any questions.
