SUBJECT: **Nexiq USB Link Translator Box Kit**

ISSUE

Detroit Diesel is pleased to announce that the Nexiq USB Link translator box kit is now available through the normal parts ordering process.

125032 USB-Link will support Heavy-Duty multiple vehicle communication protocols:

- J1708 / J1587
- J1939/CAN1 (250-500Kb)
- 2nd CAN Channel Support (250-500Kb)
- ISO 9141/KWP2000 Support in Firmware (Internal Bluetooth class 1 antenna included, Bluetooth PC adapter optional)

Compatible with WIN 2000 & XP Operating Systems

USB-Link Kit (P/N 125032) Includes:

- USB-Data-Module
- USB 15 ft., data cable
- 405048 Y 6/9-PIN data cable
- USB RP1210A device driver on CD
- Quick start card
- Users Manual
- Hard-side carrying case

The USB Link is fully compatible with Detroit Diesel Diagnostic Link, DDEC Reports, Data Summaries, and Detroit Diesel Fleet Performance Manager software. The USB Link will be compatible with all Detroit Diesel programming software applications with the release of DRS 6.1.

The USB Link is also included as part of the DDEC VI Reprogramming Station Hardware Upgrade Kit (P/N MRS-2007UPDATKT).

The ability of the USB Link to support a second CAN channel of up to 500 KB is especially important for future service needs. The USB Link has been successfully tested to work with the

electronic systems of the new Freightliner Class 8 truck and will become a required tool to diagnose that vehicle.
