February 2007

Service Parts Price Tools. Tools include the following:

- Service Parts Price List Update
- Literature/Sales Aid List
- Recommended Spare Parts Lists

Service Parts Price List Update

The Service Parts Price List Update is a supplement to the Generator Service Parts Price List. The cumulative list contains all part changes since July 1, 2006. The Service Parts Price List Update is provided in Microsoft Excel format. If a different format is desired please contact Katie Tschudy-Paulsen at katie.tschudy-paulsen@kohler.com. To access the Service Parts Price List Update, click the file name below:

I.C. Bulletin File List

File name	File type	Description
ddmtu.xls	Spreadsheet	Use a spreadsheet software such as Excel to view the list of service parts changes and additions. ddmtu.xls is in order primarily by reason and secondarily by part number.

Parts with disposition code of "F" can be returned to the factory for full credit within six months of the first time they appear in this Service Parts Price List Update. Six months after becoming disposition code "F" these parts will not be returnable to the factory. Please email aftermarketparts@kohler.com for an authorization number (GPR) to return parts.

Literature/Sales Aid List.

The Literature/Sales Aid List contains all literature that is available through your supplier of generator service parts. To access, click on the file name below.

Literature and Sales Aids List Filename and Content

File name	File type	Description
ordrspc.xls	Spreadsheet	Use spreadsheet software such as Lotus or Excel to view the list of Spectrum Literature and Sales Aids. Make a backup copy of this file and as many copies as you like. The file is sorted primarily by base part number, secondarily by suffix and tertiary by prefix. It contains the following fields:

TYPE	See attached key for list of field contents
PARTNO	Complete part number of the publication
DESCRIPTION	Description of the publication
REVISION	Current date of a new or revised publication.
CURR LIST	List price as of July 2006
MKTINDUST	Industrial market
MKTATS	ATS market
MKTXGEAR	Switchgear market
MKTRENT	Rental market
PREFIX	Characters appearing before the base number
NUMBER	All-numeric base part number
SUFFIX	Characters appearing after the base part number

Sort and organize the information in this file by part number, market, category or type of literature to meet your needs. Use the literature revision dates to verify that you are using the most current literature. Also, the list price is shown for your reference. Prices contained in this file were current at the time the list was developed.

Tip for Excel users: Open file in Excel. Note the drop-down list arrows beside each column heading. Click on the drop-down list arrow of the field on which you want to filter. Select from the drop-down list the filter criteria. A blue dropdown list arrow indicates an active filter. To remove the filter, select "all" from the dropdown list. Click on Data->Filter->AutoFilter to remove filters. See Help->AutoFilter for additional information on using this feature.

"Type" Abbreviations for Literature and Sales Aids:

W/D	Wiring diagram manual
WARRANTY	Warranty policies
YELLOW	Yellow pages

Recommended Spare Parts Lists

The recommended spare parts files contain recommended spare parts lists for selected industrial/standby generator sets. Prices on the lists are current as of the issue date. Prices are included for budgetary purposes; verify prices before ordering parts.

Note: Recommended spares lists are based upon the most common modules. Specifications and modules vary. Verify the part numbers against the parts catalog prior to ordering parts to be sure you are ordering the part numbers corresponding to your configuration.

Following is a table showing the number of recommended spare parts lists by engine manufacturer. . To access a file, click on the file name below.

Engine Manufacturer	No. of Models	File Name
Detroit Diesel	24	DDC.xls
Ford	9	Ford.xls
John Deere	10	JnDeere.xls
Mitsubishi	2	Mitsubishi.xls

The recommended spares are for 60 Hz modular specs with the Microprocessor, 16 light controllers and unit-mounted radiator.

Questions? Email aftermarketparts@kohler.com with questions you have on any of the information in the files or to obtain a recommended spares list for modular options not listed.
