Introduction

This manual contains parts lists of optional accessory kits installed on Spectrum diesel-powered industrial generator sets. This manual does not include controller, cooling, and some fuel system kits. See the chart below for parts catalogs containing parts lists of these kits.

How To Find Service Part Numbers

Follow the step-by-step instructions to determine the correct service part number. An example is given with each step.

Example: Need new circuit breaker for the generator set safeguard breaker kit.

1. Determine the accessory kit number for the needed service part. Refer to the generator set nameplate to identify the kit number installed on your generator set. See Figure 1 for an example of the nameplate.

Example: 272748 Safeguard Breaker

Figure 1 Generator Accessory Nameplate

2. Use the Index at the end of this catalog to find the location of the kit number in the Kit Parts List.

Example: Safeguard breaker kit 272748 is on page 105.

3. Locate the service part description in the list of parts following each kit. Read across to the part number.

Example: Circuit Breaker, 5 A, 240 V, 3 pole is part number X-796-6.

Kit Description/Number Sequence

This publication lists the kit names in alphabetical order and arranges kits numerically under the kit name.
