
PARTS BULLETIN

Original Issue Date: **5/95**Model: **MATS, MATS+**Market: **Automatic Transfer Switches**Subject: **Microprocessor Service Kits**

Microprocessor service kits are now available through service parts for inventory stocking. The microprocessor is programmed to default settings of 480 VAC with dropout/pullin settings as listed in the product specification sheet. TT-1067 provides programming instructions if additional programming is needed at time of installation. The instructions are included in the service kit. Choose the correct service kit from the following table.

Microprocessor Service Kits	
Model Series	Service Kit Number
MATS	346060
MATS+	346061
