
PARTS BULLETIN

Original Issue Date: **5/95**Model: **20-1600 kW Spectrum® Generator Sets**Market: **Industrial Generator Sets**Subject: **Engine Wiring Harness Change**

Effective with serial numbers greater than or equal to 363369, the engine wiring harness on 20-1600 kW industrial generator sets has changed. A generator set serial number break was taken to mark the break. Use the serial number to determine which wiring harness is needed for your unit. Choose the correct replacement wiring harness from the following table. Parts catalogs

will reflect the engine wiring harness change as they are updated.

NOTE

The new wiring harness does not include a lead to the coolant level sensor for a manual controller or engine gauge box for paralleling. Procure this 18-gauge lead and terminals locally.

Model	Generator Specification Number	Part Number	
		Before Serial Number 363369	Serial Numbers 363369 and after
